

November 11, 2025: On What is Happening

In order to help others understand what happened in the world I will attempt to explain that:

1. a group of people are using the information found in the bible;
2. to recreate a reality on earth;
3. wherein they are 'breathing' into existence (creating and causing to be);
4. beneficial circumstances for their own private club;
5. at the expense of the world around them; and
6. are using (taking) the time, money, thoughts and potential of those around them to do so.

The overall body of this club of people is hiding the fact that it exists at all by pretending that anyone that can see them is 'crazy' or 'imagining' something that doesn't exist.

After all, this is built upon information (an intangible asset) which cannot be seen or made into some form of concrete substance (like a building, a structure, etc).

So, my days are spent experiencing this 'imaginary' monster spy on my life, agitate me into wasting time trying to define it for others, and stealing the work product that I am attempting to produce to show the proper religious purpose of the biblical writings.

To be clear, our government is absolutely holding me within a false imprisonment wherein I am unable to spread my message, yet my work and message is being captured by this government and spread out to others in the form of an obscured message that benefits their team rather than the people that I am working to produce this work to help.

I am absolutely experiencing an attempt to enslave me against my will and to capture this work for the use of a private club rather than for the use of the public at large.

I am absolutely experiencing that the United States of America is turning from a country of freedom into a country of slavery like China.

We are currently experiencing the transformation of the United States into a Chinese-style slave-state.

I am spending my time defining this and sharing this so that someone else will know that it is occurring and with hopes that this message will immediately spread throughout the good and honest people of the world.

Every day, my entire state of existence is being consumed by a force that is spying on our home, watching everything that I say and do, and is sending me back a vibration to disturb me in response to it.

This is an ongoing problem. I am alerting the public. If you are not aware of the presence of evil coming from inside of the United States government, I am advising you to tune in.

America has fallen and is currently transforming into a giant slave state to benefit a small group of people inside of a private club.

As a comparative image I am stating: a tiny group of people is using the giant mass of people to make their tiny group rich and powerful while culling the masses as their 'herd' or 'livestock'.

This mass of humanity is being used to offset their own growth in a balance of power that is holding those people in slavery while growing the size and wealth of their small club. This is theft of our life. This is theft of our country. This is theft of our world.

The tiny group of people that are holding us within this state of slavery is attempting to replicate itself and will attempt to fill the space created by the void of people that leave it behind once they see the truth.

However, nobody actually wants to live that way and they will continue to dwindle in numbers and ranks as more and more people see it for what it truly is: a deception, a theft, and an illusion.

Please share this message to help everyone understand that our work is being stolen from us by a group of spies that are using technology to amplify their own stupidity while stealing the work of smart people across the world.

Please take away their microphone so that voices like mine, and the intelligent thoughts of others, can begin to be shared again in the world.

Do you want to live in a Chinese slave state under the watchful eye of a tyrant like Donald Trump?

No, of course you don't. Nobody does. You can see it across the faces of everyone that is working for his slave-driving persona.

They are miserable and he is making America miserable.

Stand up, America. Share this message and help others realize that their private club is deceiving us all to give them money for their pet projects - boring tunnels under the city, flying rockets to mars, traveling to the depth of the ocean, flying saucers into space, and providing everyone on earth everything that they say that we need except: peace, food, a reasonable standard of living, and a meaningful existence.

Let's re-focus our lives on creating things that matter to us first. Then, we can move on to making these 'visionaries' successful in their quest to become the next Howard Hughes.

Elon Musk, Donald Trump, Peter Thiel, Jensen Huang, Alex Karp: Get out of my home. Leave my family and home alone. Stop causing my neighbors to spy on me and treat me like their sheep. Stop creating this hell on our earth.

People of the world: **THOSE ARE YOUR SLAVE-HOLDERS. THEY ARE THE PROBLEM THAT IS HOLDING US ALL IN BONDAGE.**

These words are true and correct. We have become enslaved to a small private club of people that are pretending that we don't mean anything at all to the world - while they steal everything great that we are doing to paste upon themselves as their own story of success.

I promise you: I am not sitting in my house, broke, and without any opportunity to build a business because of the free and open market of American prosperity; and I certainly am not sitting here explaining this to you because these artificial constraints upon my life do not exist.

This is a an organized system of theft of intellectual property. This is the Chinese market of creating 'knock-offs' that look nice, but lack the substance of an original creation.
